

**FEDERAL AGENCY ON TECHNICAL REGULATING  
AND METROLOGY**

OIML Member State  
The Russian Federation

OIML Certificate  
R 117/1995-RU1-16.01  
Revision 1 – 09.06.2016  
This revision replaces the preceding one

**OIML CERTIFICATE OF CONFORMITY**

**Issuing authority**

Name: VNIIMS  
Address: 46, Ozernaya str, Moscow, 119361,  
the Russian Federation

**Person responsible:** Dr. S.S. Golubev

**Applicant**

Name: MIDCO LIMITED  
Address: Metro Estate, Vidyanagari Marg, Kalina,  
Mumbai 400 098, India

**Manufacturer of the certified pattern is the Applicant**

**Identification of the certified pattern:** MIDCO Fuel Dispensing Units Sure-Fill/AccueFill Series Suction type and Remote type.

Further characteristics are set out on page 2 &3.

This certificate attests the conformity of the above-mentioned pattern (represented by the sample identified in the associated test reports) with the requirements of the following Recommendation of the International Organization of Legal Metrology (OIML):

**R 117**  
edition 1995  
for accuracy class 0.5

**R 118**  
edition 1995

Accuracy Class	Maximum Flow Rate (Qmax) l/min	Minimum Flow Rate (Qmin) l/min	Minimum Measured Quantity (MMQ) l	Temperature Range °C	Maximum Volume (number of digits) #	Maximum unit price (number of digits) #	Maximum Density (number of digits) # (Optional feature)	Maximum price to pay (number of digits) #	Liquids
1	2	3	4	5	6	7	8	9	10
0.5	50	2	1 or 2 or 5	-25 to +55	999999.99 or 99999.999 (Programmable)	9999.99 (Programmable)	99999.9 (Programmable)	99999999 (Programmable / Floating)	Gasoline, Diesel, Kerosene, Gasoline mixed with max 25% Ethanol, 25% MTBE & 25% Methanol, Gasoline + Oil mix (Fixed/Variable) up to 5%, Biodiesel upto 100%, E-85
	80	2	1 or 2 or 5		999999.99 or 99999.999 (Programmable)	9999.99 (Programmable)	99999.9 (Programmable)	99999999 (Programmable / Floating)	
	140	>5	2 or 5 or 10		999999.99 or 99999.999 (Programmable)	9999.99 (Programmable)	99999.9 (Programmable)	99999999 (Programmable / Floating)	

# - The number of display digits, display size, number of displays & Decimal Points in the displays can be changed based on customer requirement.

Important note: Apart from the mention of the certificates reference number and the name of the OIML Member State in which the certificate was issued, partial quotation of the certificate or of the associated test report is not permitted, though they may be reproduced in full.

This certificate relates only to the metrological and technical characteristics of the pattern of the instrument concerned, as covered by the relevant OIML International Recommendation.

This certificate does not bestow any form of legal international approval.

Fuel Dispensing Units SureFill /AccueFill Series.

Characteristics: Comprising of one or more system in every enclosure and each sub system consist of the following parts/features.

**A. HYDRAULICS:**

1. A MIDCO Flow meter (One each for 50 & 80 flow rate & Two for 140 flow rate)with integrated and combined optical / magnetic pulsar (open able & non open able with open-close detection)
2. A MIDCO Oil Metering Pump.
3. A MIDCO combined pump and gas eliminator other than in pressurized system.
4. Break valve, Hose, Nozzle and Flow Indicator.

**B. ELECTRONICS:**

1. A MIDCO calculator - Electronic Register Assembly (ERA).
2. A MIDCO Electronic customer interface (Payment Card Reader, Printer, Keypad, Combined or separate display, Electronic & OR Electro-Mechanical Totalizer, Density and Oil % readout, Push Buttons, RFID (Radio-frequency identification), Speaker, Payment Terminal, Automation, Remote Automation - Enable/Disable through OTP (Optional), Touch Screen, Preset/Non preset, IFSF (International Forecourt Standards Forum) provision, Advertisement or remote display interfacing provision, provision of temperature/ Pressure probes, Delivery speed), OTP (One Time Password) for Pulsar Validation and Process of Electronic Calibration. These interfaces may be present/ absent based on customer requirement.
