Corrections:

- 1) The use of the NATA logo and Accreditation Number should be disregarded. Accreditation to ISO/IEC 17025 relates to laboratory testing, not certification.

The Associated OIML Test Report, NMIA report no. R2015/201_DKI_[1], includes the NATA logo and accreditation information.

- 2) The relevant OIML Recommendations identified in the Certificate should be:

OIML R 117 – Edition 1995 (E) for accuracy class: 0.5

OIML R 118 – Edition 1995 (E)

Important note: Apart from the mention of the Certificate's reference number and the name of the OIML Member State in which the Certificate is issued, partial quotation of the Certificate and of the associated OIML Basic Type Evaluation Report(s) is not permitted, although either may be reproduced in full.
